

1.0 Requirements

- 1.1 Product inspected by a sampling plan for this purchase order shall use a sampling plan in compliance with ANSI/ASQ Z1.4, "Sampling Procedures and Tables for Inspection by Attributes" or Zero Acceptance Number Sampling Plans, Fifth Edition (or latest revision) by Nicholas L. Squegla.
- 1.2 Product inspected by a sampling plan for delivery on this purchase order must use an acceptance number of zero, i.e., accept on zero defects and reject the lot on one or more defects.
 - 1.2.1 NOTE: If any part of a lot is rejected using a sampling plan, the entire lot shall be inspected.
- 1.3 Acceptable Quality Levels (AQL's) may be used to establish the proper sample size, however, the acceptance number in all cases is zero.
- 1.4 Tampa Brass & Aluminum Corp. reserves the right to require the seller to provide a copy of the seller's sampling plan for review.
